

Exam : **000-892**

Title : IBM Tivoli Deployment
Professional - Tivoli NetView
Implntn

Version : DEMO

1.After uninstalling NetView for Windows, what additional step may be required to complete the uninstall process?

- A.Delete the usr directory.
- B.Reinstall the service pack.
- C.Reinstall the SNMP service.
- D.Delete the NetView server icon from the Tivoli desktop.

Correct:A

2.What is the function of the chktrapd script on NetView for UNIX?

- A.Add new trap configurations.
- B.Identify trapd.log files that exceed a specific size.
- C.Identify possible trap configuration migration errors.
- D.Delete all trap configurations that are no longer supported.

Correct:C

3.What command provides the most comprehensive test for proper operation of the SNMP agent and proper configuration of the SNMP configuration on a NetView machine?

- A./usr/OV/bin/snmpget
- B./usr/OV/bin/snmpctest
- C./usr/OV/bin/snmpnext
- D./usr/OV/bin/snmpwalk

Correct:D

4.In which two situations should a Mid-Level Manager be utilized? (Choose two).

- A.When there is a need for trap filtering.
- B.When several different maps need to be created.
- C.When a map is divided into two or more container objects.
- D.When there are a wide variety of managed network devices.
- E.When there are managed devices beyond a firewall that does not allow ping or SNMP from your NetView Server.

Correct:A E

5.Which two statements are correct about installing the Web Console? (Choose two).

- A.There is no standalone Web Console application for Linux.
- B.The standalone Web Console can be downloaded from the NetView server using a web browser.
- C.If the Web Console standalone client is installed, it should be reinstalled if a NetView fix pack is applied.
- D.The standalone Web Console application must always be downloaded with an included Java Runtime Environment.
- E.A web browser plug-in is required and available for AIX, Solaris, Linux, and Windows platforms to support the NetView Web Console in a browser.

Correct:B C

6.Which factor is a consideration in sizing memory for a NetView Server?

- A.network speed
- B.number of processors
- C.type of operating system
- D.number of interfaces to be managed

Correct:D

7.Which two features are supported in NetView for Linux? (Choose two).

- A.Framework installation
- B.RuleSet Editor
- C.integration with Data Warehouse
- D.Agent Policy Manager
- E.export of snmpCollect data through a RIM interface

Correct: B C

8.Which command tests local TCP/IP configuration?

- A.ovstatus B.ping
loopback C.ping
broadcast
- D.ping 255.255.255.255

Correct: B

9.Which step is necessary during the initial design phase of a NetView deployment?

- A.Estimate ovwdb cache size.
- B.Estimate number of operators.
- C.Evaluate name resolution method.
- D.Evaluate need for NetView clients.
- E.All of the above

Correct: E

10.When installing NetView for Windows, which of the three will you be prompted for? (Choose three).

- A.Database type.
- B.The Administrator password.
- C.Path for NetView installation.
- D.Password for the NetView user.
- E.Drive on which to install NetView.
- F.SNMP community names to use as alternate defaults.

Correct: D E F

11.Which action is required during installation of NetView for Windows?

- A.Stop the SNMP service.
- B.Disable the network interface(s).
- C.Define a NetView user account named V?
- D.Define a password for the NetView user account.

Correct: D

12.What optional file contains environmental variables used to control Netview daemons and is sourced before daemon startup?

- A./usr/OV/bin/applsetup
- B./usr/OV/bin/netnrc.pre
- C./usr/OV/conf/nvenc.conf
- D./usr/OV/bin/netnrc.aux

Correct: B

13.NetView polling is causing excessive load on an SNMP-capable router. Which action may reduce the problem?

- A.Create a SmartSet for routers.

- B. Increase the ICMP status polling interval.
- C. Change the SNMP community string to read-write.
- D. Reduce the maximum number of routing table entries retrieved.

Correct: D

14. Which daemon must be running for MIB data collections?

- A. nvcold
- B. netmon
- C. collectiond
- D. snmpCollect

Correct: D

15. What must be done in order for traps from a device to be received by NetView?

- A. The MIB-II variable sysTrapDestination in the device's MIB must be set to NetView's IP address.
- B. The device must be configured with NetView's IP address according to the manufacturer's directions.
- C. NetView's SNMP trap configuration program must be run so it can configure the device's trap destination table.
- D. Both of the MIB-II variables sysTrapDestination and sysTrapSeverity in the device's MIB must be set for all traps to be sent to NetView.

Correct: B

16. What is required for NetView Web Consoles to connect to a NetView server?

- A. Run the oww onfigweb command.
- B. The webserver daemon must be running.
- C. The netviewd daemon must be running.
- D. Install a Java compiler on the remote workstations.

Correct: B

17. Which two packets can be sent to an IP address by NetView's status polling mechanism? (Choose two).

- A. TCP Sync packet
- B. UDP Ping packet
- C. ICMP Echo Request packet
- D. SNMP Get packet for sysUpTime
- E. SNMP Get packet for operational status

Correct: C E

18. What are the valid alternative options for the Event Stream node in a rule set?

- A. Pass and Block
- B. Accept and Reject
- C. Enable and Disable
- D. Forward and Return

Correct: A

19. Without the use of scripts, what is one function of a rule set?

- A. to change polling parameters
- B. to add selected objects to the seed file
- C. to set default web user security permissions
- D. to automatically remove events from the events display application

Correct: D

20. What are two ways to recycle the SNMP daemon on AIX? (Choose two).

A. reset_snmpd

B. snmpd -restart

C. refresh -s snmpd

D. recycle -s snmpd

E. stopsrc -s snmpd; startsrc -s snmpd

Correct: C E

Trying our product !

- ★ **100%** Guaranteed Success
- ★ **100%** Money Back Guarantee
- ★ **365 Days** Free Update
- ★ **Instant Download** After Purchase
- ★ **24x7** Customer Support
- ★ Average **99.9%** Success Rate
- ★ More than **69,000** Satisfied Customers Worldwide
- ★ Multi-Platform capabilities - **Windows, Mac, Android, iPhone, iPod, iPad, Kindle**
