Vendor: Huawei

Exam Code:H31-523

Exam Name:HCSE-Cloud DataCenter Operations
(Written)

Version: Demo

QUESTION 1

To prevent data loss caused by misoperations, system faults, or other man-made factors, data of the entire system or a part of critical data is copied from a storage device of the primary computer system to another storage device by using a certain method, which of the following is not keypoint of a backup system?

A. RTO

B. HA

C. BW

D. RPO

Correct Answer: B

QUESTION 2

Large-scale cloud data centers use regions, AZs, and DCs to organize resources and ensure security management.

A. True

B. False

Correct Answer: A

QUESTION 3

In the Huawei FusionCloud solution, which of the following is recommended for security rule protection in regions?

A. No detailed protection for IP addresses and ports is provided for mutual access between management areas in a region

B. The Internet access management zone provides detailed protection for IP+ ports and is configured on the border wall

C. The tenant zone accesses IP+ porta in the management zone through service ports and is configured on the border wall

D. The region internal management zone only performs high-risk port protection based on network segments

Correct Answer: B

QUESTION 4

In the cloud data center migration scenario, which of the following statements about P2P migration are correct?

A. Use a third-party system migration tool to transfer the system and data online to the target host where the OS is not installed

B. No manual intervention is required during the migration. The tool automatically replicates changed data in real time.

C. After all data is transferred; you only need to switch the data.

D. After the transmission is complete, the source system is closed and reserved.

Correct Answer: A

QUESTION 5

Which of the following statements about the Oracle tools RMAN used to back up, restore, and recover database is correct?

A. Applies to the migration between different database platforms or versions

B. The shutdown window is small, and the downtime is related to the total data volume

C. Some data in the database can be migrated

D. Online physical backup without interrupting production system services

Correct Answer: B

QUESTION 6

Provides distributed monitoring solutions, including monitoring events and monitoring performance. The former is used to detect the causes of abnormal IIS running, and the latter is used to establish the user

system performance benchmark.

Which of the following software is used to monitor the system?

A. Zabbix

B. Python

C. Cobbler

D. SaltStack

Correct Answer: D

QUESTION 7

Which of the following items need to be collected before Huawei active-active solution is deployed?

A. Service system

B. Physical environment information

C. Network information

D. Data volume

Correct Answer: B

QUESTION 8

In the cloud data center migration scenario, the Oracle database layer migration solution can be classified into physical migration and logical migration on data block change modes.

A. True

B. False

Correct Answer: B

QUESTION 9

During the migration evaluation of carries data centers, a large number of application technologies may exist on the live network. Therefore, it is difficult to manually collect and analyze data.

A. True B. False

Correct Answer: A

QUESTION 10

Which of the following services are supported by Huawei FusionCloud 6.X?

A. BMS

B. NVE

C. ECS

D. VPC

Correct Answer: C

QUESTION 11

It QandM management refers to the comprehensive management of IT software and hardware operating environments (such as software environment and network environment), IT service systems, and IT QandM personnel by using related methods, methods, technologies, systems, processes, and documents, in IT OandM, which of the following events needs to be handled immediately?

A. Prompt event

B. Debugs events

C. Incident event

D. Early warning Event

Correct Answer: C

QUESTION 12

In the data center storage and backup scenario, which of the following is the ALL-IN-ONE positioning of BCManager services of Huawei RD products?

A. Once-click test

B. Data consistency

C. Template-based policy configuration

D. Automatic application identification

Correct Answer: A
