You need to create multiple SharePoint groups and add the users to the groups.

How should you complete the command? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

```
Import-Csv Groups.csv | ForEach-Object {                        -Site $_.Site}
                                         Get-SPOSiteGroup
                                         New-SPGroup
                                         New-SPOSiteGroup

$_.Group .PermissionLevels                                 ▼   -Site $_.Site}
                                $_.Permissions
                                (Get-SPOSiteGroup -Group $_.Permissions)
                                [Microsoft.SharePoint.Client.PermissionKind]: $_.Permissions

Import-Csv Users.csv | forEach-Object {                    ▼   -Group
                                         Add-SPOUser
                                         Get-SPOUser
                                         New-SPUser

$_.Group -loginName $_.LoginName -Site $_.Site}
```

Correct Answer:

Answer Area

```
Import-Csv Groups.csv | ForEach-Object {                    ▼  -Site $_.Site}
                                         Get-SPOSiteGroup
                                         New-SPGroup
                                         New-SPOSiteGroup
```

```
$_.Group .PermissionLevels              ▼          -Site $_.Site}
                            $_.Permissions
                            (Get-SPOSiteGroup -Group $_.Permissions)
                            [Microsoft.SharePoint.Client.PermissionKind]: $_.Permissions
```

```
Import-Csv Users.csv | forEach-Object {            ▼     -Group
                                        Add-SPOUser
                                        Get-SPOUser
                                        New-SPUser
```

```
$_.Group -loginName $_.LoginName -Site $_.Site}
```
